DETAILED ACTION

1. This communication is in response to Applicant's amendment filed on April 5, 2006. The rejections cited are as stated below:

Response to Applicant's amendment

2. Applicants' amendment filed on April 5, 2006 have been fully considered, and discussed in the next section below or within the following rejections are not deemed to be persuasive. Applicants' request for allowance is respectfully denied.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-18 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, it is unclear whether the apparatus in the claims consists of only a website that is hosted on a bank server or the combination of both (the web site and the server). Claims 1 and 8 recite in the preamble "an apparatus --", the body of the claims contains of "a Webbank", and it is unclear what structure or hardware of the apparatus that performs the function. A system or an apparatus claim should always claim the

structure or the hardware that performs the function. In this particular case the Webbank is nothing more than a web site that has a web address. Appropriate correction is required.
